MANAGEMENT SYSTEM

Policy

ADTRAN is committed to our customers' satisfaction, providing dependable, cost-effective, on-time delivery of exceptional products and services without interruption to stated specifications.

To this end we will:

Commit to establish, and meet the objectives for the management system and continually improve at the relevant functions and levels for our: Information Security, Environmental, and Quality Management System.

Commit to the protection of the environment, and the conservation of natural resources in our daily operations throughout the product lifecycle

Comply with all applicable laws, regulations and company requirements,

Communicate and educate our employees and suppliers on environmental, information security and social responsibilities.
